

WSP Washington Update - June 6, 2018 - Interim Update - US DOT INFRA Grant Awards

US DOT has transmitted to Congress the list of project awards for the FY'17/FY'18 round of INFRA competitive grants. This program was authorized in the FAST Act as the Nationally Significant Freight and Highway Projects Program and was initially referred to as the FASTLANE program. The current Administration renamed the program as Infrastructure for Rebuilding America (INFRA) and combined most of the FY'17 funding with FY'18 funding for a total of \$1.535B. US DOT sent the list of 26 selected projects to Congress which now has 60 days to review and approve the selections before the actual grants are released. On Friday, US DOT Secretary Elaine Chao will host an event at DOT headquarters to formally announce the awards.

Here is a [link](#) to a list of the projects selected, a [link](#) to more detailed information about each project, and a [link](#) to the US DOT INFRA website.
